

# Go Paperless!

Kroll now offers a scalable paperless solution to meet the needs of all of our customers. Choose the option that best suits your pharmacy.

With the addition of a compatible document scanner you can print and scan documents (labels, etc.) to create electronic copies (*Print & Scan*). Add a digital signature tablet to allow users to sign electronically (*Paperless*), eliminating the need to print documents to sign and file or scan back in.

	Standard	Print & Scan	Paperless
File Storage	- Inefficient, unorganized, paper copies can get misplaced	- Enhanced file management (digital hard copy stored) - Reduce the need for physical storage	- Enhanced file management (digital hard copy stored) - Reduce the need for physical storage
Hardware Required	- No additional hardware required	- Document scanner	- Document scanner and digital signature tablet
Hard Copy	- Print HC and file paper copy	- Print HC, but scan back into Kroll for electronic lookup	- No HC printed - Electronic record created within the system
Med Reviews	- Requires printed copy	- Scan Med Review into Kroll using 2D barcode	- Sign off completed electronically, no paper copy to file
Cost	- Paper and toner costs	- Minimal savings	- Savings on toner and paper

A "paperless" pharmacy requires Kroll V10, a compatible document scanner and a digital signature tablet (Wacom STU-500)
